

WHAT LOVE LOOKS LIKE is different for all of us.

Do you ever think about your first love? The one who got away? The one you stayed awake thinking about at night, even years later? So many years have gone by — so much life has been lived — and yet you still imagine him or her as the vibrant person who first stole your heart. Sometimes you even still dream about them. What if they still dream of you? What if you reconnected? What would happen? Would it change your life forever?

In his first novel, **WHAT LOVE LOOKS LIKE**, author Kurt Bensworth explores this idea and unearths that buried hope of “what if?” Inspired by a real-life story, **WHAT LOVE LOOKS LIKE** is a fascinating, genuine and big-hearted portrayal of one man’s quest to find his long lost first love. Kent Huffman, the fictional hero of **WHAT LOVE LOOKS LIKE**, is an inspiration to all of us with his story of trying to find and reconnect with the “kissing booth girl,” Opal Milton, who captured his teenage heart with one flash of her Sadie Hawkins smile.

This stirring/in part true-life story will have you reminiscing about your own glory days with the special person who made you feel life was full of endless possibilities, and will leave you wondering, “what if . . .”

What would it be like to reconnect with your first love?

How would you go about doing it?

What if you're married? Is it disloyal? Dangerous? Are you risking intimacy with your spouse?

What can we discover about ourselves when we look up first loves?

Does it make us want to reconnect with others from our past?

WHAT LOVE LOOKS LIKE is different for all of us. Discover what it is for you. Read Kurt Bensworth's book. Available now on Amazon.com and in bookstores.
